Profile

Strong hands on HTML5, CSS, JavaScript, and ReactJS. Currently expanding my expertise in Web Development by learning MERN (MongoDB, Express.js, ReactJS, Node.js) stack.

Skills

- HTML5
- CSS
- JavaScript
- ReactJS
- Git and GitHub
- MERN (Beginner)

Projects

- https://sudhir302.github.io/RSP-game/
  Created simple **Scissor Paper and Rock game** using HTML5, CSS, & JavaScript where a user chooses any one option among scissor, paper or rock, and computer generates random choice accordingly the score is added to the winner. The page is responsive.

- https://sudhir302.github.io/Currency-Converter/
  Created Currency Converter using HTML5, CSS, JavaScript with the help of APIs. In this project 2 APIs are used, one for obtaining flag and other one for getting Country Currency Value.
